

nonPareil Institute Digital Technology Instructor

Remote - Fulltime

Do you want to help others learn and use the technical skills that you love? Would you like to work somewhere where you can be creative and of service to others? Are you interested in working remote?

If so, we've got the job for you – Technology + Autism!

nonPareil Online is looking for that special someone who has a background in Game Design, Level Design, and Interactive Media Design. You would have the opportunity to teach them skills that can be applied in the following areas:

- Gaming
- Interactive Media
- Architectural Visualization
- Education
- And a host of other applications

In addition to teaching these cool skills to our students, you will also help produce advise and mentor students to work towards their potential and goals that they want to achieve. You will help and guide student teams to design and develop working products or applications following proven project management methodologies and tools

We seek specialists in these tools:

- Unreal Engine
- Visual Scripting
- C++ Programming (a plus)
- Adobe Creative Suite (a plus)
- 3D Modeling (a plus)

nonPareil offers all full-time employees Health Insurance or HSA, Vision, Dental, 401k and Life Insurance. There's a generous PTO policy that offers three weeks of accrued time off, as well as a week-long break in the summer and a winter break during the year-end holidays.

Salary: Commensurate with experience / education

Reports to: Director of nonPareil Online

Location: Remote – Online

Hiring: Immediately

nonPareil is a nonprofit organization with a passion for helping build better futures for adults with autism. Our program provides instruction in digital technology and work-readiness skills that enable our students to work on teams and thrive in a professional environment, all while creating opportunities for empowerment, exploration, and accomplishment in a unique environment. Join our mission and help unlock potential for adults with autism!

Qualified applicants may apply by emailing a cover letter and resume to jobs@npitx.org.
